★ NEWSbits

THE DISTRICT WILL NOT SEEK TO RECOVER COSTS ASSOCIATED WITH THE JUDICIAL RECOUNT

On Oct 29, an application was filed requesting a judicial recount in the WV election for Mayor and Council. The judge ordered that a recount take place on Nov 1.

The recount was completed and the judge confirmed that the individuals elected to the offices of Mayor and Council remain as originally declared by the Chief Election Officer. The costs associated with completing this judicial recount have been reviewed and are estimated to total just over \$30,000.

The District's Mayor and Council passed a resolution at the Monday, Nov 19 Closed Council meeting that the District will not seek to recover costs associated with the judicial recount.

The results of the recount confirm the credibility of our election process and have removed any question of the positions being challenged. Mayor Booth agreed that the recount process was handled very professionally by staff and that “the community can feel confident in the results”.
