Discussion to date

There has been much discussion in the community about the proposed B-Line from Dunderave to Phibbs exchange. We know residents are passionate about our community and want what's best for West Vancouver.

West Vancouver Council received more information from TransLink on Monday, January 7, and has determined to proceed with further public information sessions and consultation.

Staff are confirming data now and will be able to share the presentation, the alternatives considered and back-up information with the community on Friday, January 11.

= Above is an excerpt; click on the link above to get the rest of the information on this notice. Note the line I've put in red above says the presentation will be up on Jan 11. It was put up late afternoon Jan 12 (Sat -- who's checking email then???)

Next you have to go to the document library (several docs) wch is over to the right:
