Children's rights activists **Malala Yousafzai of Pakistan and Kailash Satyarthi of India**

for their struggle against the suppression of children and young people and for the right of all children to education.'

"On behalf of all Canadians, I want to congratulate **Malala, who was named an honorary Canadian citizen on Oct 16, 2013,** and Mr. Satyarthi for their wonderful work for humanity, for their tireless efforts in favour of children's rights, and for bringing the causes they cherish to the attention of the whole world.

"I am also pleased to announce that **Malala will be visiting us here in Canada on October 22, 2014.** We look forward to pursuing our collaborative efforts on children's education."

{fyi, Malala is the first Pakistani and, at 17, the youngest-ever recipient. The average age of recipients is 62.

Satyarthi, from India and trained as an engr, has worked for a long time against child labour. He is 60.}

+ **New Position at M Hall: Mgr, Cmnty Relns**

GREAT NEWS! for about a decade or more I've suggested there be a sort of 'ombudsman' (or whatever name) to be the 'point person' for residents to call with questions/enquiries, to be told how to solve a particular problem, whom to call for information and what to do, where to do, get, and find things, etc. IOW, more helpful for the public and more efficient. It doesn't waste ppl's time calling the wrong staff and being rerouted, and less time for staff on irrelevant queries and phone calls. (See the CAO's intro in Updates & Info section.)

**All the best to the MCR, Kristi Merrilees** -- and thank you to CAO and M&Ccl for the improvement to service. :-)

+ **WVMs** ~~

Well, I did have one person who marvelled at how much time these newsletters took. And that's even without the trials and tribulations of life. As long as you realize it's best efforts. At the end of September, work was done to protect us from Shellshock (a computer security vulnerability) and updates were done also and then the system choked, letting little email through (no longer over 100 an hour, mostly spam), however on Friday (Oct 3) email stopped completely. We limp along. Mostly fixed, glad to say.

=== **VOTE ONLY ONCE EVERY FOUR YEARS?** ===

Did anything change at UBCM? No. The election Nov 15 will be for a Ccl for four years. :-)

[westvan.org/2014-15](http://westvan.org/2014-15)

btw, I tried to find out how WV voted last year on the resolution to increase to four years (see PQP p38/39). The Mayor and Cclr Panz voted no; Booth, Cameron, and Gambioli didn't vote b/c not there for the vote. My main peeve is that Ccl did not publicize such an important issue was to be voted on and did not get the public's opinion to then represent them.

**Report from Jeff Palmer, a Cycling Cop for Cancer:**

It was really an incredible experience. Physically challenging. Up to 130 km days, some on the hills of the Sunshine Coast highway and over by Powell River. Some postcard sunny days, but some days when it was as if we were getting a big bucket dumped on our head. All the training paid off. Never an issue keeping up with the youngsters, including some Emergency Response Team members on the ride.

Meeting people who have been affected by cancer, especially meeting kids affected and their families, was one of those things that tugs you in a number of ways. You're inspired by their strength, your heart breaks with some, and is warmed when you meet survivors. You leave wanting to do more for them. It is a bit hard to capture how profoundly the experience of the ride affects you.

Yes, people can still donate! <http://convio.cancer.ca/goto/jeffpalmer>.

**My fundraising total now sits at \$10,260, well past my minimum goal of \$6000.** The Cops for Cancer Tour de Coast Team also did very well.

**Our Team goal was \$168,000. At last count, we are over \$224,000 and counting.**

In total, since 1998, **Cops for Cancer has raised \$32.8M.**

{Thank you so much, Jeff C4C extraordinaire! -- Editor}

=== **UPDATES & INFO** ===

+ **WV Historical Society's new book!** -- will be presented to **Ccl Mon Nov 3** followed by a book launch at Larson Station. Stay tuned for more info on "Arrivals and Departures" re Horseshoe Bay and its ferries in WVM18.

+ **Manager, Community Relations** -- New Position

{Memo Oct 2 from the CAO to M staff; as always, my abbreviations}

One of my key priorities as CAO is to ensure that the District is providing the best possible service to our residents; I believe we do that day in, day out. Over the past year, however, it has become increasingly apparent that there is a need to have a **main point of contact for our residents, community groups, resident and business associations, and key stakeholders** within and beyond our cmnty to help inform, engage, and support the outstanding work that is done by all of you.

Effective today **Kristi Merilees** will be assuming the role of Mgr, Cmnty Relns.

In addn to building stronger relnshps, facilitating a greater level of communication and engagement between the District and our cmnty mbrs, this role will also have an internal organizational perspective; enhancing internal communications and our customer service focus.

Kristi has worked with the District of WV for eight years, knows this cmnty and our organization well, has a keen passion for working with people and providing outstanding customer service. She has worked closely with Mayor and Council, the Executive Team, and many of you. I am confident that this role will have a positive impact throughout our cmnty and our organization.

Over the next few weeks, Kristi will be getting out into the organization to discuss her role and how she can best support the work that you do within our community. Her office will be located on the lower main floor of M Hall and can be reached at 925 7008.

Please join me in wishing Kristi great success in her new role. . . **Manager, Community Relations.**

#### + Our MP, John Weston [Press Release rec'd Sept 30]

INSPIRED BY OUR COMMUNITY TO ACCELERATE NATIONAL HEALTH AND FITNESS BILL Sept. 29, 2014  
Yesterday was a crowning moment for the effort to promote health and fitness in Canada. MPs of all parties joined together to commit themselves and their parties to **appoint the first Saturday in June as National Health and Fitness Day**. The mover of the Bill in the Senate, Senator Nancy Greene Raine, Canada's Top Female Athlete of the 20<sup>th</sup> Century, smiled from the Gallery in the House of Commons as I paid tribute yesterday to all the people in our community and across the country who have decided to reverse the trend of inactivity and make Canada the "Fittest Nation on Earth". As in the case of my previous Bill, I managed to trade with MPs who were not prepared to proceed with their legislation in order to accelerate consideration of our Bill.

As mentioned in my remarks yesterday, the people of our riding inspired this Bill. Friends, neighbours, teachers, children, and business and other leaders in our community model good practices of healthy physical activity for a nation. Bill S-211 is an Act to promote those practices, while establishing a national day to promote health and fitness for all Canadians. It is designed to pave the way to make health and fitness core values today and, in the future, as part of Canada's 150<sup>th</sup> Birthday celebrations, in 2017.

Senator Raine and I envisioned the NHFD Initiative as we engaged in the public discussion of what positive legacies could arise from the 2010 Olympic and Paralympic Games. Readers will recall most of the Games occurred in our backyard. How ironic therefore that Canada's Public Health Agency recently put a \$7-billion annual price tag on health care for cardiovascular problems and diabetes arising from obesity and inactivity.

This Bill has support across all parties; 155 cities; Participation; and other agencies. Together, we will become the Fittest Nation on Earth!

John Weston, M.P. -- West Vancouver – Sunshine Coast – Sea to Sky Country

**+++ WEST VAN MUSEUM +++ 925 7295 <http://westvancouvermuseum.ca/exhibitions>****September 17 - December 6 -- Harry & Jessie Webb: Artists in Vancouver's Jazz Age**

Harry and Jessie Webb were among an influential group of artists, poets, and musicians working in Vancouver in the 1950s. The Webbs emerged during a period of transformation, when a regional modernism was developing and abstraction was a relatively recent form of expression on the west coast. The Webbs met at the Vancouver Art School while studying under Jack Shadbolt, Lionel Thomas, and B.C. Binning. Fresh out of art school and newly married, the couple saw Vancouver's gritty streets, neon, and jazz music scene as primary sources to engage in.

The Webbs, who painted and made progressive linoleum cut prints, were regularly featured in local exhibitions and appeared in *pm* magazine, a short-lived art and literary journal, created by George Wright and Yvonne Agazarian and printed by typographer Robert Reid. They became involved in Beat culture and Harry Webb designed a prominent mural (*The Trio*, 1954), interior fittings, and posters for the Cellar Jazz Club. Harry and Jessie Webb appear alongside Don Jarvis, Al Neil, and Roy Kiyooka among others in Leonard Forest's 1964 National Film Board's *In Search of Innocence*, a documentary film profiling Vancouver artists, poets, and jazz musicians.

The exhibition draws from the artists' estate and places the Webbs in context with the city's art and music scene in the 1950s and early 1960s.

Photojournalist, author, and human and environmental right activist **Robert Semeniuk** has long been fascinated by the romantic mystique of traditional markets and the raw humanity at their core. Showcasing the down-to-earth and simultaneously exotic beauty found amongst traditional marketplaces, these works contrast with our processed supermarket culture, reminding us of the increasingly fragile relationship between humanity and nature -- our source of sustenance. We present this exhibition during World Hunger Action Month with World Food Day occurring on Oct. 16, to raise awareness of the environmental and social issues that contribute to a crisis of Hunger.

Opening reception: Tuesday September 30th from 6 to 8pm

**October 21 - November 9 -- Paint and Pixels**

Painter **Patricia Vaughan** and photographer **Walter Young** both share a creative need to capture a particular moment in time or feeling in their own unique way. Vaughan's free and lively brushstrokes encapsulate the passion of her subjects, whether it be nature or animals. Young depicts the underlying geometry and natural design found in the world around him with a clear and precise intent.

*In the meantime:*

Info on Julie Clements's project: **BC Lest We Forget**

My dream is to create a virtual memorial to honour all the men and women of BC who have laid down their lives serving in the Military. This memorial is not intended to glorify war; it is to honour those who fought and died for the freedom we have today.

There are hundreds of Cenotaphs throughout BC that honour their local war dead. Almost every small town has one and the majority of them only list the last name and initials of the soldier. As time passes the local people who knew these names well, have also faded into history, thus leaving these soldiers names in a form of anonymity.

I would like to honour them by creating a website that would look past the initials and see the real people who sacrificed their lives. A tribute to young lives that were once full and brimming with promise.

The virtual memorial website will be created by photographing and transcribing the names listed on BC Cenotaphs. Then each name will be researched and flushed out as much as possible to remove the anonymity behind the two-dimensional engravings on the Cenotaphs.

I received the 2007 West Vancouver Heritage Award for researching the names on the West Vancouver Cenotaph. Since then I have slowly worked on other Cenotaphs in my spare time. I am asking for funding to be able to do the research full time and get the website designed and active as quickly as possible.

**My goal is to complete the research on all BC Cenotaphs and have them posted on the virtual memorial website by the hundredth anniversary of the end of WW I when peace was declared November 11, 1918.** The funding will cover my living and travel expenses over the next four years along with programming and website costs. I estimate I will need a minimum of \$2,000 per month to take this project on full time.

Any person or organization who donates to the building of the BC Lest We Forget website will be recognised by a virtual brick at the following donation levels in Canadian dollars:

Bronze Brick: \$25 up to \$500; Silver Brick: \$500 up to \$1,000; Gold Brick: \$1,000 and over

Please donate generously and help me make sure these names are never forgotten. "Lest We Forget"

=== TALK and WALK === David Cook 924 0147

### Thursday October 16th -- Kilimanjaro climb: Walking from the Equator to the Arctic pole.

A free public talk for Nature Vancouver (Vancouver Natural History Society)

Speaker: Bengul Kurtar; Location & time: Unitarian Church, 949 West 49th Ave. Note change of venue; 7:30 pm.

Description of talk: In this presentation you will see some unique plants and flowers which are specific to Mt Kilimanjaro.

Bengul will take you through several climate zones within an hour: the tropical rain forests, the evergreen forests, the moorlands, the alpine desert, and the arctic zone. Bengul returned from a successful trip to Kenya and Tanzania to climb the highest peak in Africa, Mount Kilimanjaro, in mid-March 2014. The climb was part of WaterCan's Kilimanjaro Climb for Life campaign to raise awareness and funds to help combat the global water and sanitation crisis.

For further info contact Botany Section Coordinator David Cook [ph or [cookeco2@yahoo.com](mailto:cookeco2@yahoo.com)]

### Saturday October 18th -- Native plants on campus

### TALK/WALK

+ **Thursday September 18th -- [Returning Cloud Pasture back to Cloud Forest in Costa Rica](#)**

A free public talk for the Vancouver Natural History Society **Speaker:** Sara P. Clark

**Location & time:** 7:30 pm at Unitarian Church at 949 West 49th Avenue (at Oak Street), Vancouver. Note that this is a change of venue from the Unity Church, 5840 Oak Street (at 42nd). This change will also apply for the Botany Section talks in October and November 2014.

**Description of talk:** This is the story of twelve years of adventure and discovery, helping turn "cloud pasture" back into cloud forest in Costa Rica. It has been a pleasure finding old friends like Vaccinium and Gaultheria along with palms, heliconias, epiphytic and terrestrial orchids among evergreen oaks, and all the incredible diversity that makes up the montane tropics.

In 2002 Sara bought 300 hectares (723 acres) of eroded cattle pasture in Costa Rica with the intention of creating habitat for the creatures that lived there before it was "improved". This presentation covers 12 years of the process and highlights the tropical cloud forest species that are creating the emerging forest, along with some of the highlights of living off the grid in a foreign land.

Sara is a retired flight attendant who now lives and farms in Costa Rica at Finca Dos Ladros Reforestation & Research Project. The farm is located on the continental divide at 2000 [metres] (6500 feet) on the northwest side of Poas Volcano. Sara's educational background is in studio art, art history, and a master's degree in ceramics. She also has considerable experience in mycology including the Pacific Northwest key council. She is a master birder from Seattle Audobon and has been in love with alpine habitats since visiting Mount Rainier when she was eight years old. She is now 73.

+ **Friday September 19th -- Capilano River Regional Park geology & forest ecology.**

An interpretive field trip for [Elder U at Capilano University](#). Trip leader: David Cook.

**Meeting Time & location:** 10am. Cleveland Dam parking lot, North Vancouver. **Duration:** Approximately 2 hours.

**Terrain:** Moderate but w/ some rough sections on otherwise well groomed trails. There is one long, steep section of stairs.

**Walk description:** Join David on an easy/slow walk w/ many stops along the trails within the northern section of Capilano River Regional Park to examine some of the geological and botanical features of this young ice and water-carved valley. The approach to the meeting location is Capilano Road in NV. The entrance to the Cleveland Dam parking area is about 2 km before reaching the Grouse Mountain Skyride.

Bring a snack and water and dress for changes in weather. Wear **deep-tread** footwear (see "Terrain").

**Registration:** Call 984 4901 and quote Course Reference No. 93114. The field trips Geology of some buildings and monuments in downtown Vancouver on September 12th and to Seymour Provincial Park on September 26th are inclusive with the one registration. **Cost:** \$15 for package of 3 walks.

~ 1 - 5pm ~ **Mid-Century Modern House Tour: Ticket Holder Reminders**

This weekend we head out for the 9th Annual Mid-Century Modern House Tour. We are looking forward to beautiful weather which is sure to make for a great day to tour some wonderful homes. For all those who will be touring Saturday, here are a few important reminders.

All ticket holders:

Have your brochure with you. It is your ticket, you will need it at every home, as well as the reception, to gain entry. If you have not received your ticket in the mail please call our office.

If you purchased a discounted parking pass from us, please take note of which lot is indicated on the pass. Your pass is only valid at the specified lot and must be displayed prominently on your vehicle's dashboard.

You will have to remove your shoes at each home, so wear slip-on shoes. We will supply some biodegradable plastic bags but you may prefer to bring a bag from home. You may also wish to wear or bring socks or slippers to avoid walking barefoot through homes.

Homes are open from 1pm - 5pm only. Please do not arrive outside of these four hours.

Additional note for Bus Ticket Holders: The buses leave promptly at 1pm from the parking lot in front of the Museum of Vancouver. Please anticipate potential delays and plan to arrive at least 15 minutes early to ensure you can find parking and are boarded onto a bus. Our office will not be open Saturday morning so you will not be able to notify us if you are running behind.

The tour is now at capacity. Cancellations? Pls check back for announcements regarding next year's tour or visit the Take a Tour page

**+++ HEADSUP 15C +++ BARD ON THE BEACH !!!**

Saturday September 20

Dear folks -- what you missed!

Closing Night!

Back from an incredible production and performance at Bard on the Beach, closing night of *A Midsummer Night's Dream*. Hilarious and innovative with superb acting. They went OTT since their last and Christopher even played an inserted cameo part as "Stinky Gaze" who wasn't chosen to play in the "play within a play", Pyramus and Thisbe. One actor was throwing popcorn at another, then turned and threw some at the front row -- and the patron threw some back at him!

Another actor went up a few rows and sat on an audience mbr's lap and she took a selfie. Bottom (Scott Bellis) threw a mostly eaten carrot (included the green part) up a few rows and it landed on my foot.

At the end, standing ovation with applause, whistles, even screams.

Tonight was the end of a fantastic summer, Bard's 25th season, with over 100,000 in attendance.

Christopher Gaze has much to be proud of -- what a fabulous achievement, what a special treasure he is, and we're so lucky to have him -- Bard is a highlight of Vancouver's summer, a brilliant jewel in Vancouver's cultural crown.

I've seen some plays in London after seeing the same one here and they are comparable (and in one, Alessandro Juliani was better in the role).

Bard is an impressive cmnty. Besides the exceptional Board, Admin, and actors, there are over 200 volunteers (who put in about 20K hours!).

The plays next summer will be *King Lear*, *The Comedy of Errors*, *Love's Labour's Lost* (as a musical), and *Shakespeare's Rebel* (a play written based on C C Humphreys's book\*).

Allan Morgan was awarded Edmund Kean's sword this year.

btw, Christopher mentioned Bill Millerd is the longest serving artistic director in Canada. Bard will be sharing some facilities in the Olympic Village with them.

Great to live in Vancouver.

Can't wait to see the plays next summer.

**Carolanne**

fyi, we have been supporters of Bard in various ways since the beginning. G set up their initial website -- it was among the first in Canada, even before Stratford's.

\* C.C. Humphreys was born in Toronto and grew up in Los Angeles and London. He's a third generation actor and writer on both sides of his family, is married, and lives on Salt Spring Island.

## NEWSWATCH & INFObits

+++ At the Climate Change Summit today at the UN, Secretary-General Ban Ki-Moon said we had to deal with it asap "b/c there's no Planet B".

<:)))>> **Salmon Return to Washington's Elwha River for the First Time in 102 Years**

Zachary Slobig, [TakePart.com](http://TakePart.com)

Slobig writes: "For 102 years, native salmon bumped up against massive concrete hydroelectric dams on Washington state's Elwha River, stubbornly persisting in their primitive urge to swim upstream and lay their eggs. Last week, that persistence paid off."

Excerpt:

.....At one time, this was one of the most productive fisheries in the Pacific Northwest, with salmon that could top 100 pounds.

A dam removal of this scale comes with plenty of unknowns. The sheer amount of sediment released once the barriers came down was unprecedented—some 27 million cubic yards have now flushed down through the river corridor and are beginning to form an estuary at the river mouth, creating habitat for Dungeness crabs and clams....

**Rosh Hashanah** (Hebrew: literally "head [of] the year") is the Jewish New Year. The Biblical name for this holiday Yom Teruah (Hebrew literally "day [of] shouting/raising a noise") or the Feast of Trumpets. It is the first of the High Holy Days Yamim Nora'im ("Days of Awe") which usually occur in the early autumn of the Northern Hemisphere. Rosh Hashanah is a two-day celebration, which begins on the first day of Tishrei. The day is believed to be the anniversary of the creation of Adam and Eve, the first man and woman, and their first actions toward the realization of humanity's role in God's world. Rosh Hashanah customs include sounding the shofar (a hollowed-out ram's horn) and eating symbolic foods such as apples dipped in honey to evoke a "sweet new year".

Observances -- Praying in synagogue, personal reflection, and hearing the shofar.

Begins -- Start of first day of Tishrei; Ends -- End of second day of Tishrei

**CCAB AWARD to MARY SIMON**

The **Canadian Council for Aboriginal Business 12th annual Vancouver Gala** this year honours corporate Canada company recipients for their PAR (Progressive Aboriginal Relations) achievements and each year one very special recipient to receive the Award of Excellence in Aboriginal Relations. Past recipients of this prestigious award included the Honourable Paul Martin and former First Nations National Chief Phil Fontaine to name a few.

The Award for Excellence in Aboriginal Relations is designed to recognize a Canadian who has contributed, through professional and voluntary commitments, to building bridges between Aboriginal people and Canadian society. Their efforts have made a substantial impact across Canada and across sectors, including the business sector.

***This year's worthy recipient is Mary Simon.***

Mary is the recent past president of the (ITK) Inuit Tapiriit Kanatami, the National Inuit Organization. She is an Officer of the Order of Canada, Recipient of the National Order of Quebec, the Gold Order of Greenland, The National Aboriginal Achievement Award, the Gold Order of the Canadian Geographic Society, The Symons Medal, the Governor General's Northern Award. She has been inducted into the International Women's Hall of Fame. She is a Fellow of the Arctic Institute of North America and of the Royal Canadian Geographic Society. In 2013 Ms. Simon received recognition as a nation builder from the Famous Five. She was recently honoured, by the Public Policy Forum for her contributions to public life, public policy and governance in Canada. Presently Mary is working with Paul Martin, Phil Fontaine, and many other distinguished Canadians as Co Chair of Canadians for a New Partnership (<http://www.cfnp.ca/>). See Mary's bio attached for more details on her distinguished career {forwarded on request}.

## +++ HEADSUP 15F +++ Mtgs/Events/Oct 6 Agenda/etc

so much happening!

Think I'll wait and add Sept 15 ccl mtg notes to Sept 8's and make the next issue 16/17 :-). wch means better note some events, a few of wch shd hv bn in WVM 16 (and were in draft). Besides the Oct 6 agenda is up.

The Awards Gala of the annual Heritage BC conference, this year in Cloverdale (at Fraser Downs) had slides and impressive stories of what ppl have done restoring and celebrating our heritage. (More details in a future issue.) It cd hv bn described as Don Luxton Night. He was involved in many -- and does great work.

UP's *The School for Scandal* at JAC (by Sheridan in 1777) had many sold-out nights including the last performance (wch we were lucky enough to attend). Charles Surface and Lady Sneerwell -- even the names were funny. Well done. Oh, Vancouver.

Sunday afternoon ppl sunbathing on the beach at Kits! Truly an Indian summer -- keep it coming cuz November's monsoon is not far off.

Great end to a calamitous week having to attend to commitments in Brackendale, hot water heater quit and not fixed for about a week (so decamped), the Shellshock Internet vulnerability so G had to take down some of our websites and update our server, so out of operation almost a week (most back but not quite all yet).

The Vancouver Sun's SCENE section in Thursday's newspaper is where most of the plays, music, talks, etc. In order to get this out before the first event this evening, I'm not going to delay this further by checking through it -- but you may!

### + SAVE THE BEES!

From: Terra Lawson-Remer - Avaaz <[avaaz@avaaz.org](mailto:avaaz@avaaz.org)>

Subject: **Before honey bees are extinct** Date: 25 September, 2014 4:34:36 PM PDT

To: "[cr@carolanne.ca](mailto:cr@carolanne.ca)" <[cr@carolanne.ca](mailto:cr@carolanne.ca)>

Dear friends,

**Silently, billions of bees are dying off and our entire food chain is in danger.** Bees don't just make honey -- they are a giant, humble workforce, pollinating 75% of growing plants. But in five days the US could move to ban the toxic pesticides that are killing them off.

**We know we can get a ban -- after a mega Avaaz campaign last year, the EU banned this group of poisons** that multiple scientists blame for bees' rapid demise. Right now chemical companies are furiously lobbying US authorities to stop action. But insider allies say a massive public mandate could tip the scales towards a ban. Let's give it to them! **If the US moves, it will set in motion a ripple effect on the rest of the world.**

**We have no time to lose** -- members of the White House's bee task force will report with proposals on Tuesday. Already 2.5 million of us have backed this campaign. **Let's race to send messages to the heads of the task force before Tuesday's meeting.** This is not just about saving bees, this is about our survival. **Click to send a message now:**

[https://secure.avaaz.org/en/save\\_the\\_bees\\_us\\_sam\\_loc/?bnAHdab&v=46989](https://secure.avaaz.org/en/save_the_bees_us_sam_loc/?bnAHdab&v=46989)

**Bees are vital to life on earth** -- every year pollinating plants and crops with an estimated \$40bn value. Without immediate action to ensure bees' continued pollination, **many of our favourite fruits, vegetables, and nuts could vanish from our shelves and of our food supply will be gone.**

Recent years have seen a steep global decline in bee populations -- **some bee species are already extinct** and just in California -- the biggest food producer in the US -- beekeepers are losing a third of their bees each year. Scientists have been scrambling for answers. While some studies, often funded by the chemical companies, argue this may be due to a combination of factors including disease, habitat loss, and toxic chemicals, powerful independent studies conclude neonicotinoid pesticides are to blame.

**It is this startling evidence and super effective campaigning by Avaaz and partners that won the EU ban.** The US Environmental Protection Agency (EPA) is required by Congress to regulate toxins, but under the influence of big chemical companies, for years they've fudged the law. Now the White House's 'Pollinators Health Task Force' could get the EPA to cancel the pesticides' registration so they can't be sold in the US. This is our chance!

**The task force reports in five days.** Already 2.5 million of us around the world have backed this campaign. Let's **race to send thousands of messages to deliver our call to the heads of the agencies who sit on the task force** before they reach their decision:

[https://secure.avaaz.org/en/save\\_the\\_bees\\_us\\_sam\\_loc/?bnAHdab&v=46989](https://secure.avaaz.org/en/save_the_bees_us_sam_loc/?bnAHdab&v=46989)

We can no longer leave our delicate food chain in the hands of chemical companies and the regulators that are in their pockets. Banning these pesticides will move us closer to a world safe for ourselves and the other species we care about and depend on.

With hope,

Terra, Alex, Alice, Ari, Nick, Laila, Marigona, Ricken, and the rest of the Avaaz team

KAFFEEMUSIK

8pm SATURDAY SEPT 27 Christ Church Cathedral

2:30pm SUNDAY SEPT 28 WV United Church

Which music would Bach, his family, and his friends have performed on summer afternoons at the famous Zimmermann's Coffeehouse in Leipzig? He was in charge of their Collegium Musicum, founded by Telemann, in the 1730s.

This programme presents pieces likely part of these events: Bach's own Brandenburg 5, a spectacular flute concerto by Frantisek Benda, one of Telemann's sublime Paris quartets, and an orchestral overture (BWV 1070) wch for a long time was attributed to Johann Sebastian, but may rather be by his son Wilhelm Friedemann: a rarely performed little gem.

Reply-To: Alex Morton <[gorbuscha@gmail.com](mailto:gorbuscha@gmail.com)>

Hello

Members of Parliament John Duncan and James Lunney are reaching out to the public regarding new salmon farm "regulations" that would allow the industry to release chemicals that kill fish. They would also allow for killing wild fish to control pathogens.

As one of the big Norwegian operators in BC considers selling out to Mitsubishi, we have three weeks to speak up about these proposed regulations.

[http://alexandramorton.typepad.com/alexandra\\_morton/](http://alexandramorton.typepad.com/alexandra_morton/)

Also there is a new film on salmon farming premiering this weekend at the Vancouver International Film Festival

<http://www.viff.org/festival/films/f14044-the-pristine-coast> The ending will surprise you!

We need to decide if we want Norwegian and Japanese companies deciding which fish will live or die in BC.

Our voices are important. See my blog on how to comment on this.

#### = Saturday October 3 -- Thanks from LPPS:

Thank you to everyone who came out to volunteer at last weekend's ivy pull in the Dale Park, and also to those who stopped by while enjoying the nice weather to see what we were up to, and to voice their support and applaud our efforts. Encouragement from the sideline is always welcomed, ask any sports team!

We had 26 volunteers of all ages in attendance, and that seemed to create an energy that resulted in the removal of more ivy and laurel than I have ever before seen piled up at the end of an event. There was a mountain of laurels and 18 very full super-sized bags of ivy! A big thank you to each and every one of you!

The project in the Dale Park is possible thanks to the continued support from our Members, the assistance of the WV Parks Dept, and thanks to several generous donations and grants. For the Dale Project, support has been provided by Canon's Take Root Program, presented by Evergreen.

Our next volunteer opportunity is this Saturday, October 4th from 9 am to Noon at the anchor site on Pilot House Road.

This is a lovely area where six years of efforts are having a big payoff. The terrain is easily accessible to people wanting to participate for the first time, or with small children, or for those who wd just like to stop by and say hello. The plan is to do some planting and gentle weeding. I have attached the notice for those who are interested. Feel free to pass it on. This is also a great opportunity for students who are accumulating volunteer work credits. As always, we hope to see you there!

Yours truly,

Ann Crosby, Lighthouse Park Preservation Society Website: [lighthouseparkpreservation.com](http://lighthouseparkpreservation.com)

### +++ HEADSUP 15H +++ Canada's role re ISIS [5/6 Oct]

**Of course had hoped WVM 16 wd be out by now, but nope.**

Since the federal govt is about to start the debate what to do, here's some background/history/analysis to consider. It might help. It's already in the WVM16 draft.

Let your party and MP know what you think. It is confusing and difficult. It's horrible. What wd be the most effective positive approach?

The debate may add to our information so even more aspects involved.....

### === IS ISIL ISIS? === To bomb or not to bomb?

On Friday Oct 3 CBC's As It Happened broadcast Green MP Elizabeth May's remarks about Canada's role. I was so impressed at her analysis that I went to her website to get them. Thoughtful.

Then the next day I read the background and analysis written by Scott Ritter.....

**Why the Current Approach Against ISIS Will Fail** -- by Scott Ritter, Reader Supported News **03 October 14**

## +++ HEADSUP 15I +++

Since time obviously is constant, why does it seem to race sometimes and drag at others? {50 words or less; write to [time@westvan.org](mailto:time@westvan.org)}

Herewith: [1] Tidbits; [2] Oct 6 Ccl; [3] Meetings Oct 8, 9, 10; [4] Morning Smile/Frustration

### 1) TIDBITS

- = New position re Cmnty Relns started Oct 1 -- great!
- = Canada commits six fighter jets, 600 personnel, six-month mission; passes 157 - 134 (Cotler abstained)
- = DWV has received two awards, the Mayor happily announced:

#### **The Commercial Real Estate Development Association (NAIOP) Awards for Municipal Excellence**

In October 2014, NAIOP Vancouver will publish its 15<sup>th</sup> annual "municipal report card" in *Business in Vancouver*. The report acknowledges those municipalities which have excelled in creating environments positive to business creation. The District of West Vancouver has been awarded the honour of Most Fiscally Responsible Municipality, with a .91% annual average inflation over the past 14 years.

#### **BC Hydro Power Smart Award**

DWV has been recognized for our participation in the Power Smart Power Program. Through energy lighting retrofit projects at the Civic Site, the District saved enough kilowatt hours to power the equivalent of 15 homes for a full year. This project required the cooperation of many staff across divisions.

### 2) OCTOBER 6 CCL: CONDENSED SUMMARY

- = Mayor announced awards DWV has received (see Tidbits above)
- = PH re **correcting FAR** for 959 21st / 2151 Gordon (**Kiwanis**) lasted only minutes; three readings in reg mtg **approved**.
- = [7:14] Delegation from Join the Pipe Canada re installation of **public tap water stations**
- = Discussion re the Shoppers (1583 MDr) DPA lasted about an hour; some interesting considerations: Shoppers proposal one storey and the DRC recommended higher density; debate re parking allowed and where. Eventually approved. At some point, CC opined shd be a plan; seemed to him another spot zoning as Grosvenor and Maison were (also wrt 752 MDr).
- = Eligibility for **permissive tax exemptions** included Salvation Army (doesn't get) and Collingwood (gets but nbrs listed violations so C'wood listed contributions to cmnty); dealt with a misclassification (error by BC Assessment); Finance Cmte will discuss
- = [8:46] **752 MDr (PkR, former White Spot) proposal and direction for OCP amendments** led to pleas to deal with MDr and TWay intersection (beforehand); present OCP largely silent on density/ht there; Sop asked for a master plan re gridlock; MB asked if there'd be CACs (yes); NG said traffic/Lower Level Rd, etc discussed at UBCM: much public consultation planned (by PkR under staff admin); NG urged higher numbers be consulted; several interesting comments by mbrs of public.
- = [9:50] **Heritage designation bylaw for 6003 Eagleridge Drive** adopted {Yay! great!}
- = Proposed Devt Procedure Bylaw re **permit process for detached sec stes and coach houses** was for adoption; since not the subj of a PH, a mbr of public expressed objections {wrt nbrs; valid, IMO}; passed with Sop opposed.
- = Bylaw **Amdmt to demolition permits and Security Deposits** was adopted.
- = Active Devt Applcns Status List (to Sept 12) was received for info.
- = Lots of Correspondence!
- = NG said at the UBCM at Whistler there were 12-1500 in attendance and 207 resolutions!
- = PQP included exploring why/how 1000 - 1200 Keith changes re removal of hedges and widening for bicycles etc without consultation of the residents; Engg will look into it.

### 3) MEETINGS

#### **WEDNESDAY OCTOBER 8**

> 7pm -- **EarthWorks at Capilano University** ----->

> 7pm **North Shore Historical Society mtg**

at the NV Museum & Archives, 3203 Institute Rd., NV

Our guest this month is well-known historian and heritage advocate, Bruce Macdonald. His book **Vancouver - A Visual History** is one of the standard works when doing any kind of historical research in Vancouver. He will talk about current projects including how to record interviews using a cell phone so both video and audio can be posted on the Internet. The Oct newsletter has news from 100 yrs ago.

See you at the meeting. Bring a friend. People with an interest in local history and heritage are always welcome.

**Bruce Macdonald** was born in Vancouver and has enjoyed a life-long interest in all things historical. With the help of the Vancouver Historical Society he produced his award-winning book, spending 10K hrs of work researching, writing,

designing the book, and completing the cartography and layout. He has served as the vice president of the VHS and president of Mount Pleasant's Brewery Creek Historical Society, and is happy to give talks and do walking tours.

**THURSDAY OCTOBER 9**

~ 7pm ~ Upper Lands WG at Srs' Ctr AND Gleneagles Cmnty Ctr Adv Cmte, GCC

**FRIDAY OCTOBER 10**

~ 9:30m ~ Cmnty Grants Cmte mtg at Cmnty Ctr (Cedar Rm)

**4) YOUR MORNING SMILE/FRUSTRATION....{moved to end}**

**+++ HEADSUP 15J +++** Oct 12; Mtgs & Election

Hope you're enjoying a great Thanksgiving. Family time! and what a great place we live in..... Take the challenge to make it even better.....

As you see,

I'm still scrambling -- hope to have WVM out tomorrow, and trying to catch up, it will be two in one: WVM 16/17 and will cover Sept 8 and 15 with highlights from Oct 6. WVM18 will cover Oct 6th's ccl mtg more. There's a new position at the Hall, Mgr of Cmnty Relations, and a new book from the WV Historical Society soon to be launched.

First, to sort out some confusion.

Was 'discombobbled' contacting KMC last week when one KMC staff person said the **WV Citizens for Good Govt's All-Candidate Mtg** was on **Wednesday Oct 15** and another said it was cancelled. A WVC4GG director confirmed it was in fact on. Then saw the date Oct 14 in the NSN! After that, another (correction and confirmation) that indeed their ACM is at **7pm on Wed Oct 15 at KMC**. The first and only one this coming week.

Of course

WVM will have the ACMs (WVM16/17 goes to ~Oct 19). Oct 10 was filing deadline (withdrawal deadline Oct 17).

Here's what it has:

=====

**+ CIVIC ELECTION [Vote Nov 15th!]** [westvancouver.ca/election](http://westvancouver.ca/election)

**> CANDIDATES**

Congratulations to **Mayor Mike Smith, again in by acclamation!**

15 candidates this time -- split six and nine :- ) -- to wit:

Joanna Baxter, Mary-Ann Booth, Craig Cameron, Christine Cassidy, Max Clough, Michael Evison, Jim Finkbeiner, Nora Gambioli, Jon Johnson, Peter Lambur, Michael Lewis, Ali Mallakin, Terry Platt, Carolanne Reynolds, Bill Soprovich

More info, contact: Sheila Scholes, Chief Election Officer 925 7045; Mark Panneton, Deputy CEO 925 7049

=====

... and now back to slaving over a recalcitrant laptop and draft. FWIW, CultureWatch will be decreased -- just so much time to research.

but QTP to end with a smile.....

As for CULTUREWATCH, Scene (a section in every Thursday's Vancouver Sun) has usually most of what's on -- apple festival on Bowen, harp concerts, even poetry readings!

{QTP to end of newsletter}

**+++ HEADSUP 15K +++**

**btw -- Info on the coming election:** <http://westvancouver.ca/government/2014-general-local-election>

just so you know.....

Herewith mtgs out of the draft newsletter wch shd appear one day soon.....and QTP at end

#### ML absent

1. Call to Order.

Mayor: good so many ...

remarks on the passing of Jim MacCarthy, listing all his volunteer work and great contributions

WV v fortunate to have had Jim as one of its citizens

2. Approval of Agenda -- adding info re LNG

3. Adoption of Minutes -- July 21 [special](#) and [regular](#) Ccl mtgs; July 28, 30, [special](#) Ccl mtgs.

#### DELEGATIONS

{Anne Mooi gave report on E. coli on beaches}

Dr M Lysyshyn: Medical Health Officer for North Shore; from January 2014

partnership WV, MetroV, and Vancouver Coast Health Authority (VCHA)

Health Auth advises on the safety; District posts warnings

Transport Canada regulates discharges from vessels

several closures, unusual

closure mid-July then all beaches in WV for the month of August

want beaches open

some mtgs ... to help figure out causes [listed some]

visited sewage plants, didn't seem to be anything

Transport Canada, asked how they regulate discharge from ships; laws, can't discharge within 12 miles -- from Vancouver Island!

Cruise Ships ... vessels own treatment

more difficulty policing smaller vessels, discharge not within three miles of shore

one sewage pipe was leaking, near Amb

some dredging on Dund Beach and might have had something to do with it [7:10]

expensive studies, researchology [?]

see situation next summer; weather and tides

Mayor: thank you; any questions?

Sop: Fraser River switched run-off?

Dr L: yes, cd come from other places

logs from Fraser River come up and to shore; not sure same flow as fecal matter

Sop: two weeks prior to that we were at HBay and there was a red tide

&&&; we saw v little movement in the tides

Dr L: normally fecal matter washed out with big tides

Sop: ?

Dr L: typically beaches closed but usu not WV

judging from the past, won't occur next summer; depends on what changed  
 NG: cruise ship -- you said [treated] onboard  
 Dr L: both cruise ships and commercial,  
 cruise ships tertiary treatment so cleaner than ours  
 commercial like our sewage treatment; water quite clean coming out of those ships  
 CC: that assumes the systems are working well; depends on testing  
 commercial monitoring by satellite  
 Dr L: the 10% do not have, hold on to them till past  
 the way they operate everywhere  
 CC: testing regime onerous? v difficult to tell if discharging, I read  
 Dr L: simply system alarm when not working  
 inspectors haven't found problems  
 one not functioning, one ship discharged into their ballast; v imp, know it's not allowed  
 come in with prev ports been to; Transport Canada knows who's at risk and who isn't  
 CC: various jurisdictions; read also Port of Vancouver  
 worried falling through regulatory cracks  
 all players acting to make sure good outcome  
 Dr L: good communication among players  
 throughout world, not clear who did this; often multifactorial  
 partners are trying to do more and more; over time situation shd improve  
 Dr L: think as robust as anywhere in the world  
 TP: think you'll see tonight many interested in recreation here  
 we don't actually have discharge stations -- cd we push regulations in that direction?  
 Dr L: don't think the Health Authority has an opinion on that  
 TP: so a voice we cd take; stronger regs  
 Dr L: Transport Canada feel regs apply to these small pleasure boats but v difficult to police  
 each indiv violator not xxx v much  
 MB: know your jurisdiction quite limited; maybe get Port Authority in, maybe letter to them  
 thank you for monitoring our waters  
 move update be received for info [7:20]

#### 4. Dundarave Business Assn, re Revitalization Plans for Dundarave Village --

PowerPoint presentation to be provided.

Gordon Holly: &&&, several here representing the Dund Biz Assn; Haywood, Bellevue, and 24th/25th Streets  
 current assn and plans for the future

#### try to connect the biz area with the [seawalk]

2400 MDr; mix of biz, condos, xxx; about 100 diff; mix of  
 71 are mbrs of 151 biz

SLIDES ... unincorporated assn; active role in supporting local biz  
 show and shine, hoedown, Taste of Dund on Thur (11th); Michael and Mary Markwick, Dundarave Festival of Lights,  
 Christmas; also have the RoyalTea-by-the-Sea [in August]

{surprised and thrilled they mentioned my event -- as Chair of Heritage WV -- in front of the Beach House restaurant}

Biz in general down; had huge draws: Caper's, Jim's, and the stationery store

streetscape getting a little rundown

you've heard of other biz assns -- Amb and HBay -- re revitalization

talking about things we can do to support each other, best practices

Dund Revite Cmte... local DBA mbrs, worked with District biz owners -- xxx turnout; warmly received

mtgs with District senior staff; proj mgmt; ensure success

Goal: create a vibrant biz area; increase mbrship; attract some complementary bizs

walking mingling spaces; increase appeal for ... and tourists; become a draw; mingling

kids running around see on islands little net cmnties

goal attract the seawalkers

possible "mosaic" path

current wall [walk] goes to 25th; hope to connect; extend [seawalk]

now ppl walk to 25th then turn around and walk back

light, banners; extend banners and lighting down to the sea wall -- not sure what that looks like

wd like to work with landscape architects

attractive and enjoyable path up from seawall along M Dr and back down to [seawalk]

project we're starting on...

CC: admire how active DBA is; know it's all volunteer

sort of thing we need in the cmnty

one of the things I think about is to have an anchor tenant -- like Caper's, a destination

what can we do to attract, make easier to attract biz?

improving the [seawalk] and passage may not be sufficient in itself

ANS: biz and how attractive they are

MB: on the right track; the benchmarking -- can't help ourselves

things going on in HBay

recommend you look at report we commissioned, Urbanics -- 60 pages

...destination devt int'l -- 2- ingredients

don't reinvent the wheel

if you can't get in, hold of them, contact me and I'll help

Sop: a wonderful place to go -- ... to HB, PkR sort of flagship  
two blocks long

{well, just over a block}

Q to Ms Leemhuis, on what basis wd we get engaged?

**NL: Planning, Engg, Parks meet with regularly; we also meet with WV Chamber**

have some objectives

do try to work with Biz Assns, they take responsibility for branding

support biz cmnties on waterfront so consistent signage

it's a work in progress

think the stars have aligned

will be looking to the Planning Dept re zoning resid and commercial areas

number of ways; you'll see big changes

Sop: you shd be licking your chops, you've got a midblock changeover

is there a situation, a pathway from 25th down to the water?

consider painting the pavement other than black; been successful elsewhere

NL: looking at all three biz assns, branding, consistent approach across cmnty

looking at shells and rocks; looking over to years

Mayor: you hear staff and Ccl behind you, valuable xxx

**I live in Dund and think they are doing a great job, meridian looking great**

Sop: thanks; wish you the best; rec'd for info

[7:38] Mayor: look forward to Thursday

**5. Woodfibre LNG Limited, re Proposal for LNG Plant in Howe Sound** -- PowerPoint presentation to be provided.

Mayor: make sure ev understands; don't make motions after delegations

staff report ... ; July 21 ... not included

passed on the fly, so I'll read the motion passed:

{wch was read out}

APPLAUSE

that motion was passed unanimously and the letter has gone out

interested tonight to hear from the proponent and see what has been proposed

**we want to be included in ev environmental xxx; shd be b/c have miles of Howe Sound**

[7:41] B Hodge: from Sq, wife and three chn

wonder why I've come down? things are not as rosy as ppl think

... fruit cup ... he argues cdn't afford it

Let them eat cake!

burger flippers

meaningful employment and LNG provides this; risks too great for benefit? I disagree

industry and risk

look around -- 800 aircraft pass overhead ev day

weigh risks and benefits; till find something better

help Sq; xxx

risks can be controlled

envmtal impacts; risks and benefits, debate them fully; process before passion

[7:44] Another man: I'm a naval architect

LNG ships more than 15 &&&; small scale project

**already an industrial site, over 100 years; deep water port, history of industrial use**

liquefaction plant, safety flare system; floating storage and offloading unit

4 construction equipment; associated infrastructure

what we'll bring to Sq

intention and passion to bring xxx to cmnty

over 100 perm staff; construction over 500 each year

pulp and paper mill, over 100 yrs, quite xxx clogged xxx

we'll continue the remediation process

discuss the tax revenues; ongoing with Sq

liquefaction not new, from 1971

SLIDES

sites operated by Fortis BC

been delivering ships for many years; 40 years without a major incident, no loss &&&

three to four carriers per month; existing sea lines

ships will be escorted by tugs, pilots when they pass Victoria; slowly 3 to 10 per month

Saint John [7:28]

near xxx not unusual; near Boston since 1971; Tokyo Bay safely since 1971

close proximity to popns and hv not had incidents

we are a port city; opp to safely manage; Howe Sound shipping for decades

one of world's leading xxx headquartered in Vancouver itself

TK [?]

\$184B good; xxx arrivals

I took these photos, climbed Chief; shots of Sound and Sq -- logging [7:50]

Sop: thank you for your presentation; sure more from the govt, fed side

Eastern Canada stmt by PM moving from Maine to Canada

Ambassador to &&&

{QUOTING:} Canada continues to have serious concerns re xxxx

envmtal, navigable and safety

wch the Govt of Canada opposes; cannot proceed

in your view you're saying absolutely no risk

40+ tankers; Canada's already stated wdn't allow it

can operate still (?) [7:52]

exemplary safety ... described; double, tanks two layers of barriers, etc

exit by tugs at a v slow speed

**we strongly believe the risks of operating LNG ships in H Sound is v small**

**Sop: who owns Woodfibre LNG?**

**ANS: sgl shareholder, headquartered in SGP**

**Sop: in paper, owner is Tanoto**

{referring to Indonesian billionaire Sukanto Tanoto of the RGE Group}

head of xxx -- is that true?

ANS: as far as we know

Mayor: we'll be moving where we xxx

Sop: &&& I can answer

incorporated in Canada and will able [?] xxx by all

Sop: I'll accept that

my last question: Port Mellon, Woodfibre, Envmtal Act; limitations of what they can put in water

large amts of water going in

you say won't be adverse effects

been around a long time and xxx Britannia? xxx recovery stage ...

{NB: as you know that clean up has cost taxpayers millions!}

a plant not going to have any effects, how not on seabed?

ANS: we're in Envmtal assmt

intention to have a water cooling system, takes from HSound and returns it to

will be assessed and ruled upon; reqmt on discharges already

Sop: when can I make my comments?

will be brief

MB: gathering my notes [7:58]

you requested a delegation when you heard of our motion

why we shd not ban freighters

Lady: our intention just to

{(shd get/listen) with the company; think it was to provide information re the LNG project}

MB: useful, Sop good question

think you know who owns; you sidestepped, and you xxx; &&& Indonesian billionaire

Why wdn't you answer?

ANS from Lady: aware but outside the the scope of our project

MB: your brochure is v vague

many local concerns; I've received more than 100 emails

let's look at the economic benefits

Why LNG? \$13B and \$8B in 2012

{Brochure circulated; shd reply to get what she said; no time but if interested, pls listen.

LNG names: Proj Dir A Brigden; Sr Mgr Corp Communications J Sidon.}

what are the royalties coming to BC?

Lady: Your question shd be directed to prov govt; they'll get xxx

MB: sure Tanoto knows

**Mayor: on the table is what is the risk to our shoreline?**

MB: I have to weigh the cost and benefits to this cmnty

APPLAUSE

let's talk about

I didn't know we were limited to tankers

another thing is the cooling

cool natural gas and the temperature's going to be raised by 10 degrees and put back; going to be chlorinated

how much chlorine over what time?

I have a swimming pool, I put chlorine in to kill everything

Naval Architect: the sea water does not cool the LNG

cools the xxx gases used in the liquefaction process

MB: I know how that works b/c I hv a geothermal system in our house

Naval Architect (NA): sea water

sodium hydrochloride inject in to ensure free from micro and macro biofeldons (?)

.02 parts per M/B (?) this is xxx less than

MB: env assmt will be looking at 17K cu m of water put into HSound per hour

want to get an idea how big

Marine traffic mgmt; we hv free ferries morning to evening

going to go after 10pm

NA: purpose to assess marine traffic shipping; one of purposes

mtgs with BC Ferries; better they answer but no concern

MB: why wasn't WV part of the process?

selected by EA, not xxx  
 you had small and open houses  
 Lady: had a mtg in WV in Feb  
 that has changed ... not many  
 NG: couple of my Qs hv bn answered  
 proposed 80 tankers a year; clarify  
 NA (Naval Architect): max is 40 tankers per year; Naval, one trip in empty, one trip out loaded  
 NG: regulation: industry regulates itself so who will be regulating ?  
 NA: under many orgs, primarily IMO; ... Transport Canada port; regs in ports  
 in BC, the BC Oil and Gas Commission  
 NG: come to plant to check or send?  
 NA: both; inspectors from BC safety authority  
 NG: quite a bit of info from Cdn Coast Guard  
 Sq pilotage auth  
 last page of that doc, list some concerns; primarily manning, safe-handling, xxx  
 NA: can't speak on behalf, but not a safety concern  
 Lady: number of mtgs  
 independent presentations be provided for you to review  
 BC pilot; they'd be happy to speak with you  
 TP: has this project been screened through Int'l xxx ? [8:12]  
 NA: compliance with SIGTO -- have we submitted you mean?  
 TP: best practices? wishing to achieve  
 my expectation and its passage through HSd, v best standards  
 you may not be able to answer; has the prov/fed govt adopted the standards?  
 so say okay to site terminal  
 NA: included in the xxx process and SIGTO  
 [LNG] Lady: reason we're not a mbr is we have to be a mbr [so] we're building to those standards  
 CC: obviously Sq most directly affected (both benefit and risk)  
 and you need FN support?  
 Lady: there are discussions but they are confidential; outside scope  
 first Q  
 CC: Dist of Sq  
 Lady: wdn't want to [8:15]  
 xxx do participate; xxx tanker safety  
 xxx Env'tal Assmt ofc; touching base with them  
 CC: have they taken any positions?  
 Lady: no, not that I'm aware of  
 Mayor: certainly agree we need &&&  
 \$1.6B XXX  
 in 1996; xxx full disclosure  
 just when I hink I'm getting out, they draw me back in  
 great job they did; no spill

### **Port of Valdez to lower 48 states and we all know how that turned out**

can remove risk, but not all

### **REPORTS**

{still Mayor speaking} Q is can we [8:17]

xxx; xxx go to Alaska in my zodiac

### **have to say Howe Sound is pretty special; next to city and recreation so close**

Am supporting the resoln we passed at the last mtg

Sop: govt of Canada has not made any inroads

hv done nothing; don't envy your position

9. [Review and Analysis of the District's 2014 Second Quarter Operating Results and Capital Plan Program](#)

[8:42] Michael Koke: not completely ... the overtime ... bulk hv bn ... {notes provided}

**Significant Variances**

The following significant variances from budget and extraordinary items were incurred during the Q1 of fiscal 2014:

First Quarter

The first payments from Grosvenor, related to the sale of District-owned lands and development of the 1300 Block of Marine Drive, were received during the first quarter of 2014. The amount received totalled \$19,294,846, which included a \$5,668,000 Community Amenity Contribution.

Year to Date

- Overtime costs for Fire & Rescue Services exceeded the total annual overtime budget (\$103,778) for this Division by \$285,379. This variance was the result of the unusually large number of firefighters (nine in total) who were on either short- or long-term sickness leave during the first half of 2014.
- Management have since implemented measures to mitigate the impact of this variance to ensure that overtime is reduced to bare minimum levels.
- The District entered into certain unbudgeted severance agreements during the first quarter of 2014. The net impact of these agreements on the year-end financial results will be reduced if replacement hires to those positions are deferred and, in the cases where vacant positions are eliminated, the result will be long-term savings to the District.

Vacancy Adjustment

It should be noted that the District's 2014 budget for salaries includes a 1% vacancy adjustment. At the mid-year, salaries expenses incurred to date were at budget; therefore, the 1% vacancy adjustment was achieved over the first six months of the year.

Capital Program

The bulk of the District's larger capital programs will be executed over the summer months. As in most years, capital spending at the end of the second quarter is, for the most part, below budget, with the major exception being facilities renewal projects that were forecast to be completed before the end of 2013. Funding for these projects was carried forward to 2014.

Operating Expenditures

Expenditures for Engineering and Transportation are tracking higher than budgeted as a result of: winter road maintenance costs (\$250,598, or 81%, of their annual budget of \$309,000) from the beginning of the year; an unbudgeted increase of 9% to the rate charged by BC Hydro; and higher than budgeted boulevard maintenance costs (\$163,433, or 62%, of their annual budget of \$265,100). Engineering and Transportation are forecast to be on budget by year end.

Forecast

As noted above, the mid-year review includes a forecast to the end of the year. Other than the exceptions noted above, **the overall year-end results are currently forecast to be at, or slightly better than, budget.**

**Sop: surplus?****MK: \$400K at end of year****Sop: are we budgeting too much?****MK: not an exact science****Sop: am getting the evil eye**10. [Sport Field Master Plan Implementation Strategy – Five Year Plan](#)

{He read statement/letter}

Good Evening:

My name is Josh Hemond and I am here on behalf of MP Weston who is in transit as we speak. He asked me to read you the following message from him.

"I am sorry that I cannot be here tonight and support the hard work of the West Vancouver Mayor, Michael Smith, and the WV Council members. They are once again, showing their dedication by going through this process.

I am in favour of responsible resource development. Corporations, communities, and institutions have to be more effective, more productive, and less wasteful. They need to continuously improve on their impact on social, environmental, aboriginal, and economical development.

When there is a focus on the principles of "continuous improvement", value-added jobs will result, which is the key to a

sustainable world. It doesn't mean we have to say STOP – but it does mean that we have a responsibility to continuously improve. Peer-reviewed data and community input are essential to see the PROCESS upheld.

It is why I say the Environment is the Economy. Our quality of life, our economy, and our environment are inter-related and intertwined.

If a project respects the factors just mentioned, I am likely to support it. Otherwise, I will not support it, as we all remember the cell towers project."

### 1. CALL TO ORDER 7:02

### 2. PUBLIC HEARING

#### **Heritage Designation Bylaw No. 4785, 2014 (request for heritage designation for 6003 Eagleridge)**

The Director of Planning, Land Development and Permits will describe the subject application.

**Applicant:** The Corporation of the District of West Vancouver

**Subject Land:** 6003 Eagleridge Drive

**Purpose:** 6003 Eagleridge Drive was added to the WV **Community Heritage Register** on July 21, 2014, which provides formal recognition of its heritage value. In accordance with the **property owner's request**, the proposed bylaw would provide **for ongoing legal protection of the house and garden through heritage designation.**

**Proposed Heritage Designation Bylaw:** If adopted, proposed Heritage Designation Bylaw No. 4785, 2014 would specifically protect: the exterior of the building; interior building features that are listed as character-defining elements in the Statement of Significance (attached as Schedule A to the proposed bylaw); and significant landscape features.

Once designated, any alterations to the elements and features protected under the bylaw (except for normal building repair and maintenance, and landscape management) would require a heritage alteration permit.

The proposed bylaw includes delegation of the authority to issue heritage alteration permits to authorize alterations that are not otherwise permitted by this bylaw, or by Heritage Maintenance Bylaw No. 4187, 1999, to the Director of Planning, Land Development and Permits.

MB: is this designation forever, basically?

SM: [hope so] however like any bylaw, can be

{MClk read out procedure for PH [7:15] sound/mics no longer working again}

Joanna Baxter: congratulations on doing this; v happy doing this about homes like this

lived in several houses; 1960s' style West Coast xxx  
being ripped down every day; feel strongly, in this time, fighting for nbrhd character, have to work harder for these wch still stand

such as this residence built on difficult props, honour natural surroundings  
if pass this, hope can do further and further into the cmnty, and WV will be know for its heritage characterdddd

**Homelessness Action Wk is Oct 13; Oct 13 Open House Thxgiving dinner**

SLIDES -- slide of events ev day

appreciate your engaging with us

tone of the conversation has changed over the years; level is higher

engagemt from citizens and Ccl; look forward to continuing

last cpl of minutes, over to my friend Michael

Michael Markwick: thank you for the fact Dund Fest has met its xxx

ending homelessness can be done and done [7:27]

some research on Cap: the majority of students at Cap are xxx insecure; couch-surfing; living in tents and vehicles

real; not something that happens to WV from Vanc, it's from WV

homegrown; more \$\$\$ more to rent

ppl who built this cmnty are bearing the brunt

cd work in summer to pay for rent and books, no longer; now work part-time while studying and share

one of my students turned out to be someone from a school my kids went to -- Pauline Johnson and she was living in a car, for a year

help; recommend London; has used Land Trusts -- making sure srs who built and kids can stay

Mayor: some Qs

NG: read the article in the paper the other day, lost photos, and man who found them

help when found out about his situation; good news story

ANS: has generated a lot of engagemt

prospective employers came forward to offer work; often trying to get news stories created and that one brought in

MB: thank you for your work re marginalized; high needs Clinic operating out of LGH?

ANS: near

MM: a storefront on 13th and Lonsdale

testimony to work nurses getting done

leveraging donated dollars -- has reduced time in LGH

ANS: VCH worked well, was a pilot prog and have been extending to other cmnties

also getting outreach workers etc.

&&& a new safe space

only open three hours a day, in the morning -- cd be improved

1200 visits who otherwise wd hv had zero

MB: xxx bottom 20% were 80% of resources

ANS: so, cost effective

MB: do you encourage public to these events?

ANS: all are public

MB: doesn't have a street on it

ANS: good question; have?

MB: xxx

ANS: will get it to you [7:35]

Amb Street Soccer; if you came along you'd be welcome to play

[chuckle]

Mayor: our Ccl's tradition to always be first, when?

MM: any time now; sesquicentennial -- wrapping up to 150 trees

shd be online by this weekend; you already have your tree

may I return to Cclr Booth's point?

working with Police Bd, used to have a Canine Day; no longer the case

allowing liaison to work with shelter [7:36]

a virtual circle; coming to terms

Mayor: glad to hear our Police are following through

TP: this is good news; all orgs, a real collaboration; sometimes small things make big differences

Thank Delegation

MOTION: THAT the delegation from the NSh Homelessness Task Force re Update on Homelessness Action Week 2014 and Task Force Activities be received for information, with thanks.

## REPORTS

### 4. Reports from Mayor and Councillors on Boards, Committees, and Working Groups

Moved to immediately following Item 10. [7:38]

### 5. Proposed Zoning Amendment Bylaw No. 4805, 2014 (Housekeeping Amdmts) (File: 1610-20-4805)

Sokol: Lisa Berg will make a brief presentation

LB: SLIDES

to improve the day-to-day use of the zoning bylaw; correct errors and omissions

none intended to have ...

**{Get/See slide of Summary:**

**think I'll suggest slides be put on the WV website maybe w/ agenda item so residents can see/have them for info}**

erroneously omitted [7:40]

Mayor: this bylaw has nothing to do with the upcoming bylaw re buildings wrt ht, size, and ...

MOTIONS MOVED, SECONDED AND PASSED:

THAT proposed "Zoning Bylaw No. 4662, 2010, Amendment Bylaw No. 4805, 2014" be read a first time.

THAT proposed "Zoning Bylaw ..., Amendment Bylaw" be presented at a **public hearing scheduled for Oct 20 at 7pm** in the M Hall Ccl Chamber, and that the MClerk give statutory notice of the scheduled PH.

### 6. Proposed Devt Procedures Amdmt Bylaw (Devt Permit Process for Detached Sec Stes, Coach Houses)

**NG: when I read the report it took me minutes to figure out what this was about**

**when we bring in the paper, is there a way of making it more clear to what we're talking about?**

NG: long number, no idea house coaches

starting a new company at city hall

**{not quite clear to me --**

**what company? and does she mean District Hall? (b/c WV is a District, doesn't meet the qualifications to be a city).**

**NV, however, has a city and a district and is discussing coach houses too.}**

MB: similar vein and don't want to make it more complicated

def section pt 4; even having a photocopy wd help re context

LB: that was the attempt of Summary A rather than delve? through ev ?

did try my best to simplify a lot of bylaws, and housekeeping; will take note

MB: I'm unusual, I like reading statutes

Sop: know status of Sunset Lane today?

LB: all the little parcels xxx lane no longer nec; all been completed

Sop: over years, nice to hear come to a conclusion

amended by eliminating Sec... replacing it with Sec xxx; prev map to new one?

Sokol: deleting one map and replacing it with a new map xxx [7:45]

parcels created and changes

Sop: do we own the road now?

Sokol: yes, we do

Sop: xxx Appendix A -- were there no regs for accessory lot??

LB: many regs for accessory buildings; had a lot of enquiries so this [clarifies]

Sop: Sheet A -- Are the regulations not made yet

LB: attached

Sop: extension of regs

LB: ..... regs....not proposing to change

Sop: think odd ... like comparison; sure you know what you're doing? for us to read this, a little convoluted

LB: it is [7:47]

Mayor: &&&

Sop don't want to leave others out; am sure you can sell tix

[chuckles]

MOTION PASSED: THAT proposed "Devt Procedures Amendment Bylaw" be read a first, second, and third time.

### 7. Proposed Building... Amendment Bylaw (Demolition Permits and Security Deposits) (File: 1610-20-4798)

[7:48 ]SM: Coach Houses 18 mos; DP AREA for detached sec stes

[7:50] first stage is siting approval SLIDES

**inform nbrs of proposal**

**siting est'd, proceed to xxx, and landscape design; staff provide formal notification**

**purpose to establish procedures; provide delegation of approvals; provide for minor housekpg amdmts to the bylaw**

realize wd hv bn helpful to proposed wording

attention to bylaw itself;

four substantial (setbacks, etc)re delegation, important 3.8, 3.9, 3.11, and 3.12 (rest re xxx bylaws/? errors??)

**delegation of Ccl powers to the Planning Director &&&**

site coverage setbacks bldg height (to address steep) ht, bldg face; Applicn fees [7:55]

SLIDE start in Nov

NG: wrt last slide,, really not v much for second section, only \$700 more -- surprised

take a look at the real costs of that -- up to a year -- might warrant a higher amt

secondly, photos so easy to understand, like the way you've done it

Sop: last year or two, brilliant job, admire it

when brt to Ccl back in July asked if we'd have procedures in front of us, have now

see nothing has changed -- I knew that was going to happen

coach house can go in any xxx one -- most of cmnty below hwy

YES

Sop: you've spelled it out, don't want someone to spend a lot of money and then have it turned down

**can't say don't want in nbrhd [7:58] &&&**

facing someone's bedroom wd be some sort of appeal

no mbr of Ccl wd hv the right to say anything; phone re lane house looking into my bedroom and I can't do anything about it

**not comfortable handing over to staff; &&& [7:59] not comfortable**

SM: the bylaw before you both delegations

on July 21st Ccl passed a xxx guidelines taking into account views, etc, DP process;

again talk to nbrs; we have ability to &&&

proposed design going forward, will look into

**applicn process, we try to mitigate and often leads to revised designs**

**Sop: no doubt in my mind staff do a good job**

xxx &&&; **didn't support: two reasons: nbrhd wd hv no say and Ccl wd have no say**

Mayor: motion, then debate

Sop: I'll button up but reserve the right to continue

**MB: all variances be considered by Ccl other than zoning and the ht; going to be the most contentious**

**so we cd see some coach house variances coming to Ccl?**

YES

MB: how many variances in year?

SM: \$64K questions

had prop owners come to see; learning; how to xxx the guidelines

MB: fair number of enquiries

Mayor: NG wd you like to put motion on floor?

**NG: but first a Q -- is there going to be provision for appeal**

SM: ?

Sokol: there is a provision; before fees and charges initialized make sure

**NG: can nbr appeal or only prop owner?**

**SM: no prov for citizen to appeal**

**NG: nbrs cd hv some input**

**but with all the new houses going up, 100s ev year, nbrs don't have any appeal re windows looking into window**

{MADE MOTION}

CC: do think this is a v sensible carefully crafted policy; have to be careful not making too complicated

last one had no uptake; have to make it appealing and feasible to use the process

Cclr Sop's {concern?} keeps bringing up Ccl and nbrs haven't a say

**in this policy nbrs do have a say, more than in any other devt**

**as I read it, to give staff direction, give warning**

**staff not going to approve..... don't take into nbrs' concerns**

**only fault is if think staff won't do xxx**

**put my faith in staff; evaluate after a year but expect them to be successful**

**want policy to succeed and won't if xxx &&&**

&&& support; congrats clear and not too bureaucratic

**Sop: we're dealing with a coach house; desire to redo house at same time -- two sets of rules?**

**SM: excellent Q; struggled**

**prop where being built; DP control over entire site**

[8:09] &&&; **see after year**

have approached v conservatively; jump through a number of hoops; like to control....

Sop: not correct if an indiv makes a pres

cannot ..... shared driveway and it wd pass

as an occupancy in the front

been done, passed, so why not

meets bylaws

SM: v good example of that on Jefferson; two on one prop; cdn't wait

essentially a house with a sec ste but it's xxx [8:11]

stepping ahead and allowing building a second house

Sop: if look at it for a year, Ccl have decision

heard from others

sit with nothing to say; coach house, five coach houses? that's the only bug I've had with this

there are covenants below the hwy that don't allow for subdivision -- still coach houses allowed?

say Gleneagles? they don't allow

**SM: re private covenants, we don't enforce them**

{hm; who does? what are they worth then???

some instances they preclude &&&

re proposed delegation; potentially {controversial?} areas  
{Scholes, Berg, &&& ??? }

**Sokol: sec ste and coach house does not involve delegation at all**  
surrounding nbrs wd be aware, and up to them to take action

Sop: one...

Mayor: thought that was a summary

Sop: thought we xxx rental only but you have there stratfied; no intent to stratify ever?

**SM: coach house policy; provides for rental coach houses**

policy private ownership under two sp circumstances (indicate xxx)

**incentive, heritage -- only has 44**

**Sokol: those proposals need to go to Ccl**

**Sop: irfill housing?**

Mayor: move along

MB: support this going fwd

will be surprised if we see new devt of this sort of thing

**more economical to build one big house instead of two little ones; can see for some working well**

**the one-yr review period is critical; tweak, streamline; be a bit of wait-and-see**

like the guidelines, well-written and clear; wd like to see this

know re shiny roofs -- may blind your nbrs

Mayor: the purpose of this coach house policy is another tool what Ms Baxter eloquently said is to preserving [8:17]

**one thing I agree with Cclr Sop, not turn nbr against nbr**

{good remarks by the Mayor....}

sugg to Mr Sokol, ev want to know

**bring one page summary -- my intention to approve -- so Ccl mbrs know**

can appeal if

but not if [8:18]

keep Ccl informed in the cmnty; ev supports, probly Cclr Sop in principle

building ... no tearing it apart

Sokol [8:18]: xxx

**PASSES with Sop opposed [8:19]**

**7. Proposed Building... Amendment Bylaw (Demolition Permits and Security Deposits)** (File: 1610-20-4798)

&&&

X: did not apply for demolition until after; when dug out discovered rock outcroppings and had to go back

stop issuing demolition before

site left in poor condition

prop didn't devp, soil not in good conditions so concerns in nbrhd; feel addressed

Sop: review? of bldg... process?

Sokol: yes

Sop: appears there's a need; value of plan checkers; we have two and NV has four

{means four in total for DNV and CNV combined?}

and we have [twice???] why not hiring more?

Sokol: a few years back allowed us to hire two temp and this past year allowed two more

again, ?double? will ask &&& [8:22] xxx

{re budget?}

Sop: tearing it down, we have not control?

Sokol: these regs apply to sgl-fam homes, not larger structure

Sop: right to tear down and we have no control?

Sokol: refer to Manjit re

Manjit (staff): intent of the bylaw is to address xxx construction; xxx wd need to go through the process

Sop: just curious; recomms v valid; from a Ccl's POV where go to make it easier????

Mayor: Staff wd like you to get to a motion on the floor

Sokol: part to handle larger % of permits xxx

[8:24] Sop: move 1, 2, 3

Mayor before we get into debate, Cclr MB

MB: moving along

found the chart at the back really useful, comparing us to 21 other Ms

was the number of permits issued, nice to see that on this chart

we have high value for props; we don't have the comparison numbers

Sokol: not attached to this report but we have reports number of permits and number of staff

depends on complexity of projects

Manjit: data colln info; number of permits, diff bldg bylaws

comparables we see are construction costs, number of staff, newly xxx

we may demolish and build a new one that's 1 to 1; try but not easily [8:27]

Mayor: Sop?

**Sop: no, I don't want ppl to think I talk too much**

**Mayor: don't know how anyone cd think that**

{chuckles}

**MOTION: proposed "Building Amendment Bylaw" read a first, second, and third time.**

**PASSED UNANIMOUSLY [8:28]**

{had noticed many Chinese residents sitting together in the Chamber; more than ten left after this motion passed; someone mentioned interested in (decreased) setbacks.}

### **7.1 Admin Agreement on the Fed Gas Tax Fund in BC (Gas Tax), Cmnty Works Funding for Local Govts**

Mayor: we have signed over &&& {GET}; majority of money goes to TransLink

MB: ?

Mayor: this is something new; huge amt of money pay

\$800 paid {per prop?} -- for our rapid transit and freeway system we have

{&&&}

MOTION PASSED:

1. Ccl enter into the 2014-2024 Cmnty Works Fund Agreement under the Admin Agrmt on the Fed Gas Tax Fund in BC; and
2. the Mayor and MCik be authorized to sign the 2014 – 2024 Cmnty Works Fund Agreement under the Administrative Agreement on the Federal Gas Tax Fund in BC between DWV and the UBCM.

### **BYLAWS**

#### **8. Heritage Designation Bylaw No. 4785, 2014 (request for heritage designation for 6003 Eagleridge Dr)**

*The proposed bylaw received first reading at the July 21 reg Ccl mtg and Ccl scheduled a PH re the proposed bylaw to be held on Sept 15. If the Sept 15 PH has closed the proposed bylaw may be considered for second and third reading at the Sept 15, reg Ccl mtg. If the PH has closed Ccl is not permitted to receive any further submissions re the proposed bylaw.*

[8:30] CC: thank {resident/owner}

{re Heritage} we rely on mbrs of public; look fwd, if support of the cmnty; come fwd and speak to staff about it

Mayor: Cclr Panz

TP: wait, there's another piece

MOTIONS PASSED:

Proposed "Heritage Designation Bylaw" be read a second time; Proposed ... be read a third time

### **CONSENT AGENDA ITEMS**

#### **9. Consent Agenda Items**

##### **9.1. Cmnty Engagement Cmte Work Submission**

**(CEC work plan, WG Guidelines, Terms of Ref for the Cmnty and Corporate Energy and Emissions WG)**

TP: felt cmnty shd know looking for volunteers; came out of the Climate Action WG; worked with Cclr NG excellent opp

MB: quick Q

re WG guidelines, thought had changed MAY to WILL

Brent: you are correct -- [8:32] will

Mayor: haven't got to the Consent Agenda yet

MOTION PASSED:

[Oral reports from the Mayor and Councillors received for information]

**10. OTHER ITEMS -- No items.****11. PUBLIC QUESTIONS AND COMMENTS**

Mayor: Carolanne Reynolds

CR: Sorry, I thought there'd be other ppl; I'm Carolanne Reynolds, Editor of West Van Matters

Yes, the **Terry Fox** [Run], I think that was interesting; he wanted a dollar for every person who lived in Canada, about \$20-some million at the time, and **now he's raised over \$634M** -- it's just incredible.I do want to **thank you all for the heritage item tonight, and the designation, and asking ppl to apply, or to volunteer**

I do want to know if you have any date for the heritage, -- you said you were going to reinstate the heritage, a heritage body of some sort, and I've been waiting with bated breath for when -- do you have any idea when?

Mayor: it's a work in progress, Carolanne

CR, chuckling: okay; so it's a 'heritage' work in progress

{others chuckled}

as far uh. there was a letter I sent in, I didn't see it but, um, many ppl, and I know you yourself, Mr Mayor, and others, have said that four years for a civic term is not what many ppl want; and that you wrote a letter and did what you cd

Now, the UBCM conference is coming up in a few weeks, so I was wondering if there cd be a movement there to

- (a) reconsider it
- (b) make it each M's decision, so a M cd choose if they want four, or whatever, three, two, and
- (c) the third thing, if we can't do that, as I mentioned to you, it might be possible say, to have elections ev two yrs, but for half the Council so that the ppl of the cmnty get to have a say

b/c it has been the practice in some cases for whether it's mbrs of the public or devprs or whatever to do whatever they wanted, go a little further than they shd until the last year before an election, and so if we have an election ev two yrs, then the public can have their say, both what they like, what they don't like, what they want changed

and so I wd like to urge -- who from WV is going? No. 1

can they urge M decisions -- flexibility, I mean ppl want diff things

and cd there be decisions such as ev two yrs, but only half so the terms really are four yrs?

Mayor: well, Ccl, I've already made my comments known to the Minister, and got a v nice pat on the head letter back from her, but does anybody know whether at the UBCM they're going to reconsider this? I honestly don't know--

NG: No, it's not a resolution as far as I know

**CR: can anybody bring something up or ask questions?****who went last time when the decision was made?****and who is going this time?****and are there any resolns, that perhaps you cd publicize so that the public perhaps cd tell you what they thought of them?**

Mayor: um, Ms Scholes, are the UBCM resolutions -- they're public info, are they not?

SSch: the nomination cmte booklet and the resolns to be considered are all on the UBCM website

{Well, Dear Readers, not debate time, but **obvious resolns our M reps will vote on shd be well-publicized, cmnty's input sought, so our Ccl expresses our opinions at UBCM! Why not discussion and votes at Ccl for at least the main ones?**}

Mayor: it's night-time reading if you want to do it, Carolanne

{a bit much to expect, hm?}

CR laughing: who went last year and who's going this year?

Mayor: I went last year; Cclr Booth went last year; [plus] Cclr Cameron, Gambioli, and Panz

CR: did you all vote for it or against?

Mayor: I certainly voted against -- so, you know, **it's an individual thing**

{individual??? not expressing the view of the cmnty? shdn't it be sought beforehand???

MB: I didn't vote; I wasn't there for that vote

Sop: I went to the UBCM for a number of yrs, year after year after year, and the federal Ms quite frankly, you'll find a lot of experience communicating with mbrs from other cmnties across the country, but--

CR: that's FCM

Sop: and locally from the Lower Mainland, and BC

they have to change their format; their format is not correct for a modern day; there's too many issues we don't get at all of them, and I don't find it meaningful as it used to be; consequently, in the last years I haven't gone out of it comes a few items, but v seldom, all the recomms that seem to come from outside the prov they've got to use a new format, a WG format -- WGs work and they don't do it

I've said this before

CR: I think you're referring to FCM, I was talking about UBCM

Sop: FCM and UBCM

CR: oh, both. So who is going this year pls? to UBCM

DING

Mayor: I'm going b/c there's two Mayors functions on the Monday; TransLink Mayors' mtg and then mayors' caucus mtg, on Monday, so, you know, I shd attend those

CR: anybody else?

Mayor: I shd attend those so I'm going. Cclr NG's going, and Cclr Cam's going, so WV will be well-represented by the three of us

CR: thank you very very much

### === BISONWATCH === Where the buffalo roam(ed)

U.S., Canadian Tribes Sign Historic Bison Treaty [Al Jazeera America]

Excerpts:

Native tribes from the United States and Canada signed a treaty Tuesday establishing an inter-tribal alliance to restore bison to areas of the Rocky Mountains and Great Plains where millions of the animals once roamed."

...Native tribes from the United States and Canada signed a treaty Tuesday establishing an inter-tribal alliance to [restore bison](#) to areas of the Rocky Mountains and Great Plains where millions of the animals once roamed.

Leaders of 11 tribes from Montana and Alberta signed the pact during a daylong ceremony on Montana's Blackfeet Reservation, organizers said.

It marks the first treaty among the tribes and First Nations since a series of agreements governing hunting rights in the 1800s. That was when their ancestors still roamed the border region hunting bison, also called buffalo.

The long-term aim of Tuesday's "Buffalo Treaty" is to allow the free flow of the animals across the international border and restore the bison's central role in the food, spirituality and economies of many American Indian tribes and First Nations – a Canadian synonym for native tribes....

...Bison numbered in the tens of millions across North America before the West was settled. By the 1880s, unchecked commercial hunting to feed the bison hide market reduced the population to about 325 animals in the U.S. and fewer than 1,000 in Canada, according to wildlife officials and bison trade groups in Canada. Around the same time, tribes were relocated to reservations and forced to end their nomadic traditions....

...Keith Aune, a bison expert with the Wildlife Conservation Society, said the agreement has parallels with the 1855 Lame Bull Treaty, a peace deal brokered by the U.S. government that established tribes' hunting rights....

...The treaty signatories collectively control more than 6 million acres of prairie habitat in the U.S. and Canada, an area roughly the size of Vermont, according to Aune's group.

## BLACKFEET or BLACKFOOT INDIANS

Is it Blackfoot or Blackfeet?

**"Blackfoot" is the English translation of the word siksika, which means "black foot".** It refers to the dark colored moccasins the people wear. Some Blackfoot people are annoyed by the plural "Blackfeet", which is obviously an anglicization. But most Blackfoot people accept both terms. "Blackfoot" is more commonly used in Canada, and "Blackfeet" is more commonly used in the United States.

### History

Member of an American Indian people who migrated from the Great Lakes north and west into the Saskatchewan River valley, Canada, and Montana, in the early 1700s. Their name derives from their black moccasins. They comprise three sub-tribes: the Peigan (Pikuni), Blood (Kaini), and Siksika (Blackfeet); and speak an Algonquian dialect. Like the Plains Indians, they were skilled buffalo hunters even before they acquired horses and guns in the 18th century, and had a warrior culture. White settlement and the near extinction of the buffalo in the 1880s ended their nomadic lifestyle. Most now farm reservations. They number about 27,100 (2000) in the USA, and 15,000 in Alberta, Canada.

<http://blackfeetnativeamericans.blogspot.ca/>

Blackfoot, also called Blackfeet, North American Indian tribe composed of three closely related bands, the Piegan (officially spelled Peigan in Canada), or Piikuni; the Blood, or Kainah (also spelled Kainai, or Akainiwa); and the Siksika, or Blackfoot proper (often referred to as the Northern Blackfoot). The three groups traditionally lived in what is now Alberta, Can., and the U.S. state of Montana, and there they remain, with one reservation in Montana and three reserves (as they are called in Canada), one for each band, within Alberta. The Blackfoot in the United States are officially known as the Blackfeet Nation, though the Blackfoot word siksika, from which the English name was translated, is not plural).

### === TREEWATCH === Norway to pay Liberia to save trees!

**Norway Will Pay Liberia \$150 Million if They Stop Deforestation by 2020** Matt McGrath, BBC News  
McGrath writes: "Liberia is to become the first nation in Africa to completely stop cutting down its trees in return for development aid. Norway will pay the impoverished West African country \$150m (£91.4m) to stop deforestation by 2020." ...Liberia's forests are not as big as other countries' but the country is home to a significant part of West Africa's remaining rainforest, with about 43% of the Upper Guinean forest.

It is also a global diversity hotspot, home to the last remaining viable populations of species including western chimpanzees, forest elephants, and leopards....

..."We hope Liberia will be able to cut emissions and reduce poverty at the same time," ...

...Under the terms of the agreement, Norway will help Liberia to initially build up the capacity to monitor and police the forests....

...The country agrees to place 30% or more of its forest estate under protected area status by 2020. It will also pilot direct payments to communities for protecting the forest.

Ultimately the Norwegians will pay for results, with independent verification that trees remain standing....

### === BEERWATCH === (From our beer correspondent, The Zythum Scriptor)

**Sartori -- wet-hopped ale, sometimes called fresh-hopped ale**

Late September is when **one of the high holy days of the craft brewing industry** falls: the arrival of the wet-hopped beers. Hops is the ingredient that provides both the bitterness and the floral aromas. The problem is that to preserve hops so they can be used year-round, and to make shipping and storage easier, they are usually crushed, dried, and compressed into pellets. As one might expect, that has a negative effect on the flavour and aroma.

So once a year, some of BC's more adventurous brewers head out to the hop farms, gather fresh hops from the vine, and brew limited-release batches of beer with the freshest of hops. The resulting beers are a delight to the senses. Unfortunately they sell out within hours, and have a shelf-life measured in days. Most of this year's brews from Driftwood, Hoyne, and others have been sold and consumed so mark your calendar for next year.

### === IS ISIL ISIS? === To bomb or not to bomb?

★ **On Friday Oct 3** CBC's As It Happened broadcast Green **MP Elizabeth May's remarks about Canada's role**. I was so impressed at her analysis that I went to her website to get them. Thoughtful.

{Here's most of what she said. The total text is on the website (link below) as well as the video (under 4min)}

I want to reflect very briefly on the fact that in June 2011, I was the only member of the House to vote against the continued bombardment of Libya, recognizing at the time, as I said in Debates, I was deeply troubled by the fact that among the rebel forces we were supporting was al Qaeda and there were warehouses full of arms that could easily end up in the hands of extremists and inadvertently fuel terrorism. I do not stand here to say for one moment that I was right and all members were wrong. That is not my point at all. We were united in our concern as Canadians to do the right thing. However, in this region of the world, if there was ever proof for the adage that the **road to hell was paved with good intentions, we have it in spades** from the U.S. deciding it would be a bright idea to recruit a millionaire named Osama Bin Laden to take on the threat of the Soviet presence in Afghanistan, create al Qaeda, and hope that when they went through somehow Afghanistan could hold it together. Then we went back into Afghanistan, and then we had the ongoing crisis of terrorist organizations. We had what happened in Libya.

In June 2011, the Minister of Foreign Affairs said, "Obviously, no government can be worse than the Gadhafi regime". I

think the road to hell was paved with good intentions again in Libya because we meant well, but in turning down peace offers and peace talks and pursuing a bombardment we **inadvertently increased the strength of terrorists....**

...I completely support what the Prime Minister said, that Canada cannot stand on the sidelines. In every single town hall meeting I had earlier in September, my constituents and residents of my communities opened by saying: what do we do about this terrorist threat of ISIL; what about ISIS, it is horrific? My response to them was this. **We need to sign the arms trade treaty. We need to stem the flow of conventional arms to terrorists. We need to track the money. We need to find out who is fuelling these people. We need sensible plans.** We need to make sure that there are not vast numbers, cohorts of unemployed young men, who feel alienated within their societies. If this is called practising sociology, consider me guilty of it. I call it thinking. We need to speak.

I completely support all of the Prime Minister's intentions. We cannot allow these horrific crimes to go unanswered but we must make sure whatever we do does not make matters worse. That is why I hope we will have a fuller debate for more than just one day so that we can bring to bear the collective knowledge and wisdom of Canadians, every single one of us in this place representing constituents who want Canada to do the right thing. I do not think we are there yet. Without disrespect to any of us, **bombings have never ended an Islamic or any religious extremist terrorist threat.** Time after time it has made matters worse. Let us try to look to the lessons of history before we go to war again.

<http://elizabethmaymp.ca/military-action-iraq>

{Reminds me of Hegel: "*We learn from history that we do not learn from history.*"}

★ Then the next day I read the background and analysis written by Scott Ritter....

**Why the Current Approach Against ISIS Will Fail** -- by Scott Ritter, Reader Supported News 03 October 14

#### **Excerpts:**

...I was in General Schwartzkopf's underground command post in Riyadh on the morning of January 17, part of a battle damage assessment team trying to piece together a snapshot of our military accomplishments that had transpired overnight. Later, as a UN weapons inspector inside Iraq, I was able to speak to the men in charge of the buildings and facilities we were trying to destroy that night. "You Americans are very good at blowing up concrete," General Amer Rashid, the Deputy Director of the Military Industrial Commission, told me. "And we are very good at pouring concrete. But if you give us enough forewarning, there won't be anything but concrete in the places you bomb." This was indeed the case.

...The Islamic State, having demonstrated its media savvy with slick Internet videos depicting its various heinous acts, would hav...e obviously known such an attack was coming. Given that its ranks are filled with veterans of the 1991 Gulf War and the 2003-2011 American invasion and occupation of Iraq, it can be assumed that the Islamic State is well-versed in the effects of various American air-delivered munitions and their method of delivery. Having tracked American drones and reconnaissance aircraft overflights of Syria in the past weeks, the potential areas of interest were likewise well known to the Islamic State. As was the case in the Gulf War, I am certain the United States and its Arab allies succeeded at blowing up concrete. I am equally as certain that anything of value that might have been housed in such structures, whether human or machine, had long ago departed.

...43 days of concentrated aerial bombardment.... Air power alone did not then, and cannot today, solve a problem as complex as the one confronting the world vis-à-vis Saddam Hussein's Iraq (in 1991, and again in 2003) and the Islamic State's so-called "caliphate" in Syria and Iraq today. Nor are "boots on the ground" an adequate solution, even in conjunction with overwhelming air support. While the coalition assembled during the Gulf War proved adept at closing with and destroying the dug-in Iraqi Army, the elite Republican Guard divisions that represented the focus of the coalition air and ground forces emerged from that conflict intact and fully capable of continued combat operations. Likewise, the armed forces of Iraq were never fully defeated in 2003, nor did they ever surrender. Instead, they melted away overnight, part of a larger long-term strategy of resistance to American occupation initiated by the Iraqi Ba'ath Party, and sustained over the years by that organization and a myriad of other resistance groups, including Al Qaeda in Iraq (the precursor to the Islamic State). Once ensconced among a sympathetic and supportive population, these surviving forces provided the kernel of resistance that was never defeated, and which serves as an important element of the combat power of the Islamic State today....

...Killing men who willingly seek martyrdom is like blowing up concrete -- there will always be more who are willing to die, just as there will always be someone willing to pour more concrete for us to blow up.

The key to victory over the Islamic State is to be able to get at what is, figuratively and literally, inside the building. In the case of the Islamic State, this means coming to grips with the reality that the "caliphate" is more than an artificial construct of so-called "terrorists". The notion of a "caliphate" has been a vibrant part of the Sunni Arab world since the dissolution of the Ottoman Caliphate after the First World War. The Ottoman Empire, and the caliphate it sustained and supported, was far more than the Turkish entity portrayed by the west. It was a force of Islam, one that found adherents throughout the Muslim world, including the Arabs. The end of the Ottoman Empire did not bring with it the end of the romance of the caliphate among Sunni Arabs, and the promise it held of a greater Islamic state ruled by Shari'a law. Indeed, many Arab nationalists who fought on the side of the west against the Turks hoped for the creation of a greater Arab state centered on the holy cities of Mecca and Medina which would replicate the form and function of the Ottoman Caliphate....

...The notion of an Arab "caliphate" is not a new phenomenon fabricated from thin air by the radical jihadists of the Islamic State. Rather, it has existed in the psyche of the Sunni Arabs of Mesopotamia and the Levant for more than a century. The essence of the successes enjoyed by the Islamic State to date centers not on any wide-spread embrace of their radical vision, but rather the fact that their movement gives voice to a dream that has long been dampened by the forces of the west and their autocratic regional allies. ... **But bombs and missiles, while adept at blowing up concrete and creating martyrs, have never been successful when it comes to eradicating ideas.**

Void of any competing ideology, it is hard to see how this new war on the Islamic State will ever succeed in supplanting the visionary dream of a Sunni Arab Caliphate that resides in the hearts and minds of so many Sunni Arabs living in Syria and Iraq today. On the contrary, it is likely that this campaign will succeed only in fanning the flames of the radical Sunni fringe, empowering them in a way nothing else could. America's allies in this effort -- Saudi Arabia, Jordan, Qatar, Bahrain, and the United Arab Emirates -- are a living manifestation of the kind of autocratic rulers who have earned the contempt of many of the disenfranchised Sunni Arabs who currently flock to the Islamic State. These autocrats, more than anyone,

understand the dangers posed by the concept -- and reality -- of a Sunni Caliphate, since it is their very survival that is at stake.

This is one fight the United States, having committed itself to, cannot simply walk away from. The ramifications of retreat would be dire and virtually uncontainable. ... Bombing cannot, and will not, deliver success. Nor will boots on the ground, .... **What is needed is a competing ideology** that resonates not with America's erstwhile Arab allies, but rather the Sunni populations of Iraq and Syria....

**The United States spent a quarter century bombing, invading and occupying Iraq to rid itself of Saddam Hussein, and now we can only dream of having such a strong, inclusive secular leader. ...**

#### **Calgary, Mull**

**Calgary Bay** is located on the north west of [Mull](#) about 5 mi (8.0 km) past [Dervaig](#), 12 mi (19 km) from the island's capital [Tobermory](#), and is framed by low hills, partly wooded. A broad area of [machair](#) (a grassy meadow growing on [calcareous](#) sand) lies between the land and the beach. As the tide falls a river meanders across the sands. ...

**Calgary** village is a small community of houses scattered near the hotel and Calgary Farmhouse. [Calgary Castle](#) overlooks the bay. It was the origin of the name of [Fort Calgary](#) in Canada, which became the city of [Calgary, Alberta](#). [1]...

#### **Calgary Bay**

The name comes from the [Gaelic](#), *Cala ghearraidh*, meaning *Beach of the meadow (pasture)*. "Cala" is the word specifically used for a hard, sandy beach suitable for landing a boat, which relates plausibly to the location. A small stone pier, originally built to allow "puffers" (small steam-driven cargo boats) to deliver coal to the Mornish Estate, was also used to take sheep to and from grazing on the [Treshnish Isles](#) and gives a further possible reason for the name of the bay. [1]...

..A rocky knoll above the houses still has the remains of a [dun\\*](#), though many of its stones were taken to build the houses. On the East side of the bay Calgary House, now called [Calgary Castle](#), was built in 1817 extending an earlier Calgary Estate [laird's](#) house. [4] Colonel [James Macleod](#), Commissioner of the [North-West Mounted Police](#), was a summer guest here. In 1876, shortly after returning to [Canada](#), he suggested its name for [Fort Calgary](#) which gave rise to the city of [Calgary, Alberta](#), a metropolis of 1,071,515 citizens and the Greater [Calgary Region](#), population: 1.3 million.

### === WORDWATCH === where does dun come from?

> from <http://en.wikipedia.org/wiki/Dun>

**Dun** is a generic term for an ancient or medieval fort. It is mainly used in the [British Isles](#) to describe a kind of [hill fort](#) and also a kind of [Atlantic roundhouse](#). The term comes from [Irish](#) *dún* or [Scottish Gaelic](#) *dùn* (meaning "fort"), and is cognate with [Old Welsh](#) *din*, from whence comes [Welsh](#) *dinas* (meaning "city").

In some areas, duns were built on any suitable [crag](#) or hillock, particularly south of the [Firth of Clyde](#) and the [Firth of Forth](#). There are many duns on the west coast of [Ireland](#) and they feature in [Irish mythology](#). ...

Duns seem to have arrived with [Celtic cultures](#) in about the 7th century BC. Early duns had near vertical ramparts made of stone and timber. [Vitrified forts](#) are the remains of duns that have been set on fire and where stones have been partly melted. Use of duns continued in some parts into the [Middle Ages](#).

Duns are similar to [brochs](#), but are smaller and probably would not have been capable of supporting a very tall structure. Good examples of this kind of *dun* can be found in the [Western Isles](#) of [Scotland](#), on artificial islands in small lakes.

#### **Toponymy**

The word in its original sense appears in many place names, and can include fortifications of all sizes and kinds, for example, *Din Eidyn*, in [Gaelic](#) *Dùn Èideann* which the [Angles](#) renamed [Edinburgh](#), *Dún na nGall* in Ireland ([Irish Gaelic](#): "fort of foreigners") renamed [Donegal](#) by English planters during the [Plantation of Ulster](#), and the [Broch Dun Telve](#) in [Glenelg](#).

> **The Dunderave Estate** -- <http://search.savills.com/property-detail/gblhralar140007>

The Dunderave Estate is an extremely rare property with a beautiful Grade I Listed mansion house and about 549 acres... Dunderave is situated between the famous Bushmills Village (home to the whiskey) and the Giants Causeway,...

Although the Macnaghten Family has had a presence in North Antrim since about 1580, they continue their close historic links with Scotland. The current baronet is the Chief of the Clan Macnaghten and, indeed, the name Dunderave' is derived from the former Clan seat Dunderave Castle which is located North of Inveraray on the shore of Loch Fyne in Scotland.

> ALSO: Dunderave Castle

**Dunderave Castle** is an [L-plan castle](#) built in the 16th century as the Scottish seat of the [MacNaughton clan](#). The castle lies on a small promontory on the northern shores of [Loch Fyne](#), around 5 kilometres (3.1 mi) north-east of [Inveraray](#), [Argyll](#). The castle is in use as a residence. The present castle was built after their previous castle was destroyed following a [Plague](#) infection. The old castle, and remnants of McNaughton [crannógs](#), can still be seen on the [lochan](#) known as the Dubh Loch at the head of [Glen Shira](#).

The name Dunderave is of Gaelic origin. Since the MacNachtans were designated 'of Dunderave' from as early as 1473, the place-name appears to have moved with the clan from the Dubh Loch. It has been suggested that the name derives either from Dun-an-Rudha, meaning 'The Knoll on the Promontory', or else from Dun-da-Ramh, 'The Castle of Two Oars'. The latter is taken to imply that there was a ferry near the site of the castle. [1]...

### Heritage Week 2015

The theme for Heritage Week 2015 in British Columbia is **Main Street: At The Heart of The Community.**

The week kicks off on Feb 16, which is designated as Heritage Day across Canada by Heritage Canada The National Trust:

"Our Main Streets and traditional downtowns are a heritage worth celebrating! As venues for commerce, entertainment, worship, shopping, and more, they speak volumes about a community's social and economic history.

Downtowns have long been places where families and friends gather for parades and fireworks, and where the community commemorates milestones and tearful homecomings. Providing a rich and textured backdrop are the historic buildings that line our main streets: landmark post offices and places of worship, commercial architecture with enticing display windows, and homegrown shops and cafés that together create a vibrant mix of services and uses.

Car culture, the rise of regional shopping malls and big box stores that pull shoppers and businesses away from city centres have been hard on our historic main streets and downtowns. But hundreds of communities recognize that the heritage of downtown is an asset that attracts new residents, invites tourists, and stimulates new investment — the foundation for a vibrant economy and a sustainable future.

Heritage Canada The National Trust promotes the third Monday of February each year as Heritage Day and has long advocated adopting this date as a national holiday."

## QUOTATIONS THOUGHTS PUNS

To be nobody but myself -- in a world which is doing its best, night and day, to make you everybody else -- means to fight the hardest battle which any human being can fight, and never stop fighting.

-- E.E. Cummings, American poet (1894 - 1962)

**No battle is ever won, he said. They are not even fought. The field only reveals to man his own folly and despair, and victory is an illusion of philosophers and fools.**

-- William Faulkner, American novelist (1897 - 1962)

A committee is a group that keeps minutes and loses hours. -- Milton Berle, quoted in news summaries (July 1, 1954)

Pang's first job is to disabuse you of the common misconception that doing two things at once allows you to get more done. -- Lisa Zeidner; This is Not the Inbox You're Looking for; The Washington Post; Aug 18, 2013

**Setting up libraries is like building public granaries, storing up reserves for a hibernation of the mind which, despite myself, I see many signs of its approach.**

-- Marguerite Yourcenar, Belgian novelist (1903 - 1987)

The most important scientific revolutions all include, as their only common feature, the dethronement of human arrogance from one pedestal after another of previous convictions about our centrality in the cosmos.

-- Stephen Jay Gould, American palaeontologist, biologist, author (1941 - 2002)

**This is certain, that a man that studieth revenge keeps his wounds green, which otherwise would heal and do well.**

-- Sir Francis Bacon, QC, English author (1561 - 1625)

Strength is the capacity to break a chocolate bar into four pieces with your bare hands--and then just eat one of the pieces. -- Judith Viorst, American author (b 1932)

**I don't ever write my name on books that I buy; I only do so after having read them as only then can I say they're mine.**

-- Carlo Dossi, Italian writer and politician (1849 - 1910)

It's not the load that breaks you down, it's the way you carry it. -- Lena Horne, American singer (1917 - 2010)

*Politics is the religion of those who think they're God.*

-- A line in *Equivocation* by (Jesuit) Bill Cain (US); premiered in 2009; part of Bard on the Beach, summer 1914)

There are two possible outcomes: If the result confirms the hypothesis, then you've made a measurement. If the result is contrary to the hypothesis, then you've made a discovery. -- Enrico Fermi, Italian physicist, Nobel laureate (1901-1954)

**My God! The English language is a form of communication! Conversation isn't just crossfire where you shoot and get shot at! Where you've got to duck for your life and aim to kill! Words aren't only bombs and bullets — no, they're little gifts, containing meanings!**

-- Philip Roth, the title character speaking, in *Portnoy's Complaint* (1967)

NOTE: Alex Portnoy, a Jewish college student from New York City, is having an epiphany of sorts as he reflects on the nature of the interactions he's been having with the family of his Christian girl friend when he travels to her Iowa home over the Christmas vacation. He surprises himself by abandoning his typically crabby morning disposition and cheerfully saying "Good Morning!" (about this, he writes: "Suddenly, here in Iowa, in imitation of the local inhabitants, I am transformed into a veritable geyser of good mornings"). He is further surprised when people ask him how he has slept and "for the first time in my life I experience the full force of a simile" when his girlfriend's father announces that he has slept like a log. The stark contrast between modes of conversation in Iowa and New York City stimulates the foregoing thought.

Values are like fingerprints. Nobody's are the same, but you leave 'em all over everything you do.

-- Elvis Presley, US singer (1935 - 1977)

**You are never a loser until you quit trying.** -- Mike Ditka, US football player and commentator (b 1939)

What experience and history teaches us is that people and governments have never learned anything from history, or acted on principles deduced from it. [Georg Wilhelm Friedrich Hegel](http://www.georg-wilhelm-friedrich-hegel.com/), German philosopher (1770 - 1831)

Time is life. It is irreversible and irreplaceable.

To waste your time is to waste your life, but to master your time is to master your life and make the most of it.

-- Alan Lakein, from a book written 1973; American author now residing in Santa Cruz, CA

Politics is the science of perception (what you see and hear is not always what you get) and emotional prejudice.

-- A comment by Eldon J Bloedorn (aged 73) to Andy Borowitz's satirical piece in the New Yorker, reprinted in Reader Supported News, Sept 25  
<http://readersupportednews.org/opinion2/277-75/26076-cheney-qno-fairq-that-obama-gets-to-bomb-syria>

Democracy is based upon the conviction that there are extraordinary possibilities in ordinary people.

-- Harry Emerson Fosdick, American pastor (1878 - 1969)

The first step towards the solution of any problem is optimism. -- John Baines, retired British academic (b 1946)

When I opened the first snow-pea pod, one fell out and rolled under the fridge. One might say it was an escapee.  
 I had an account with a bank in the North Pole, but they froze all my assets.  
 Yogi had a whisky, water, and tea drink every night. He was a toddy bear.  
 The divers had to be careful, the octopus was heavily armed.  
 Cartoons produced by the Japanese government are animes of the state.  
 I don't like tops of stairs. They always bring me down.  
 I bought a ton of staples and pushpins all for \$3.99, plus tacks.  
 Broken puppets for sale. No strings attached.

I caught these potatoes smoking weed,  
 one could say that they're baked potatoes.

Funniness and cleverness have always been two notable factors for rating puns, but the third has groan in significance.
